Our handler will stay with the doves and assist with requests, whether they be photographs with the doves, handling the doves and the set up and release of flocks.

A Pair of Doves will be placed together in a decorated white wicker cage which is hung on an ornate stand. These unique handmade cages are beautifully decorated with silk flowers ribbon and wound in ivy.

Decorative Doves can be placed at the entrance of the venue to welcome your guests as they arrive.

A flock of doves represents the celebration joy and happiness shared with your guests as you embark on your new life together.

Beautiful flocks can be released from 10 doves to a spectacular 100.

Newlyweds will each receive naturally moulted white feathers in a small keepsake bag as a memory of the event.

Symbolic Doves

Remembering those who cannot be with you on your special day...

A time for remembering can be achieved by releasing a single doves from our beautiful memorial carriers.

The safety of our doves is paramount.

Severe weather conditions may not allow a release to take place. We know this maybe a disappointment to the family, but we will do our up-most to reschedule, for example, a memorial, birthday anniversary or a family gathering.

Each one of our doves has been extensively and knowledgeably trained to navigate back to its home once released.

Your wedding organiser will be happy to organise your booking directly with us on your behalf.
